Policy document on the green campus/plastic free campus

A Green Audit is a systematic process to evaluate the environmental performance of an organization, institution, or facility. It aims to ensure sustainable practices, compliance with environmental regulations, and the promotion of an eco-friendly culture

Objectives

- Assess current environmental practices and policies.
- Identify areas for improvement in energy, water, and waste management.
- Ensure compliance with environmental regulations.
- Promote sustainability and environmental awareness within the organization.
- Develop action plans for reducing environmental impact.

Both the teaching and non-teaching staff of the institution is committed towards activities that concern sustainable development. This we will achieve through the following strategies:-

- i. Sensitize the students and staff regarding judicious use of water
- ii. Bring into use the 'Rain Water Harvesting' on the campus;
- iii. To maximize the use of ICT and minimize the use of paper. It will help to go towards 'Paperless Office'(already implementing it, however);
- iv. Use the solid waste through vermi-compost on the campus and use it as a fertilizer. Production of vermi-compost and selling it commercially for resource generation. The vermi-compost plant has already been installed in the science campus of the college. The plant is operational and the institution plans to produce vermi-compost for in-campus and professional requirements in the future;
- v. To protect and nurture the flora and fauna on the campus;
- vi. To create a vertical garden in the campus and increase the aesthetic appeal of the campus. Moreover, endeavors will be made to preserve indigenous medicinal plants in the garden.

Methodology

1. Pre-Audit Planning.
2. Data Collection
3. Site Inspection by Green Audit team
4. Data Analysis
5. Reporting
6. Action Plan

Key Focus Areas

1. Energy Management
2. Water Management
3. Waste Management
4. Transportation
5. Sustainable Procurement
6. Monitoring and Review

Conclusion:

The Green Audit Policy is a critical tool for promoting sustainability within the organization. By systematically assessing and improving our environmental practices, we can reduce our ecological footprint, ensure regulatory compliance, and foster a culture of environmental responsibility.
